

About Relinns Technologies

Our team is on the path of finding religion in the workplace of today. To find our way, we have three tools at our disposal: cutting edge technological tools, a meticulously dedicated work ethic, and crisp bow-tie professionalism. Exceeding expectations is our standard! Exceeding expectations is our standard! We live in the realm of rising, ever evolving technology. From the cassette tape to nanotech skeletons, we've come a long way.

Splitting an atom is no longer a big deal – and who'd have thought that we'd talk through airwaves? Change is inevitable, and we're the tide that brings it. At Relinns, we breathe tech solutions and embrace innovation with open arms. With over 3 years of experience, we've had phenomenal growth which acts as a testimony to the knowledge we've come to gather over time.

What we do

Mobile Apps

Marketing

Mobile Apps Development

E-commerce. Taxi Hailing. Dating. Eating out. Everything has an app interface in today's world - or at the very least, needs an app interface. We can give you unmatched conversion to mobile, as we are a warehouse with everything you need for powerful, customized app development.

What we do

Game Development

Save your kingdom. Line up the same colored blocks. Toss that grenade. Zipline on Mars. Prevent an alien invasion. Ride the Siberian Tiger. Best of luck to you doing all that in real life. For those interested in making their own digital playgrounds, we have the tools. Game development at its best.

What we do

Web Development

We do Client-side scripting and Server-side scripting with a mastery over scripts for all needs: PHP, Wordpress, Openkart, Magento, Python, JavaScript, jQuery - to name a few. We have strong Database Tech and are familiar with Oracle RDBMS, Microsoft SQL, Apache and more. From the information gathering stage to the Design, from Coding to Maintenance: all the integrals of web development under one roof. Our roof..

What we do

Designs

Massimo Vignelli says "Good design is a language, not a style. Well, we use this language quite effectively to style your project. Deliver the ultimate user experience through our design services!"

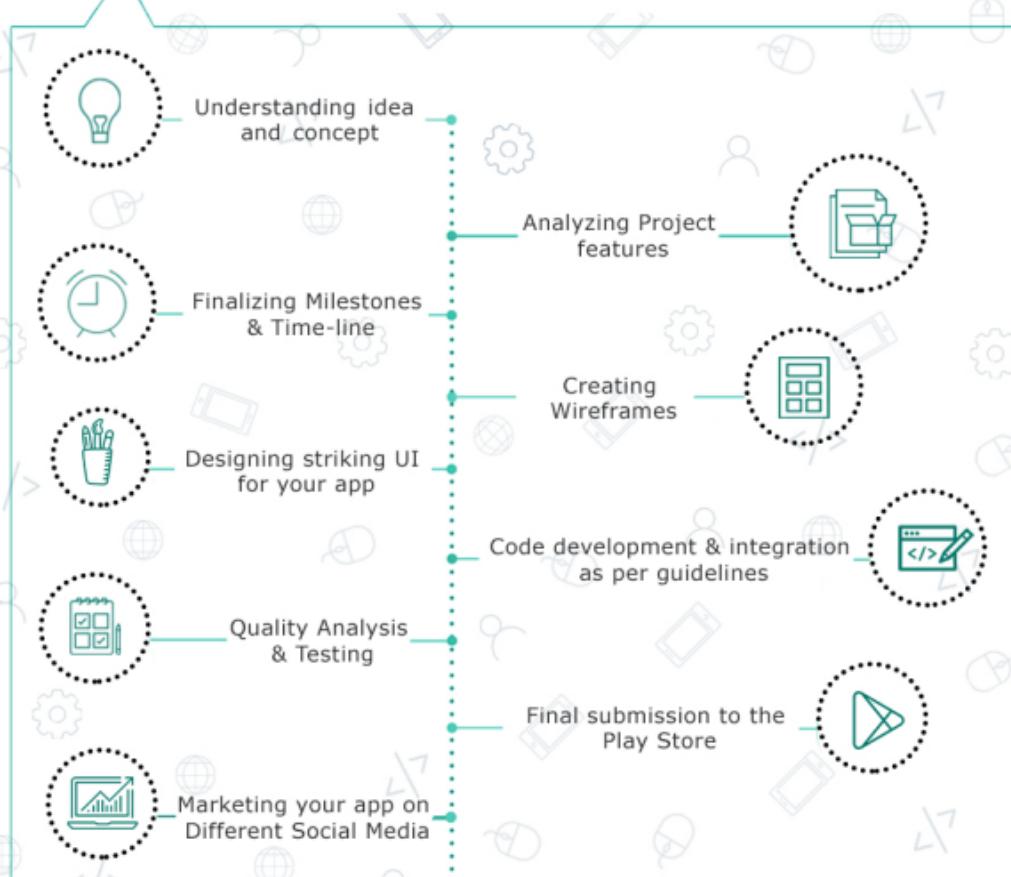

What we do

Digital Marketing

Who doesn't like making the consumer's life easier? Well, we certainly do. To convert that thought into action, we have a dedicated marketing solution offering all to make your product grow from sapling to tree.

Approved On Play Store.

Our work

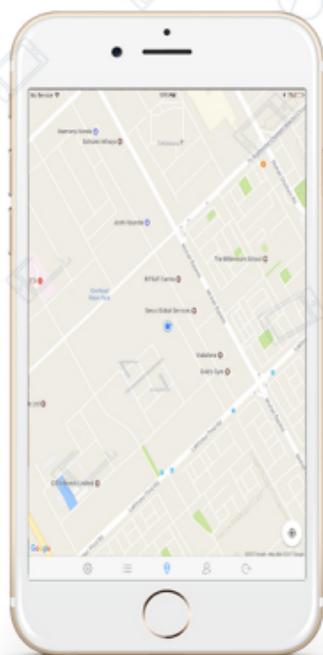

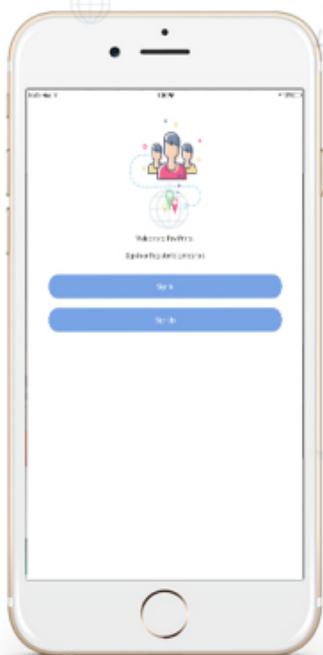

Pawprints

Problem: Any parent's worst nightmare is not knowing where their kid is.

Solution: Install Paw Prints on your and your kid's device and say goodbye to panicking over your kid's whereabouts. Tracking can be disabled at any time through the tracking list, also multiple users can be added.

Services: Security, Safety, Monitoring.

Our work

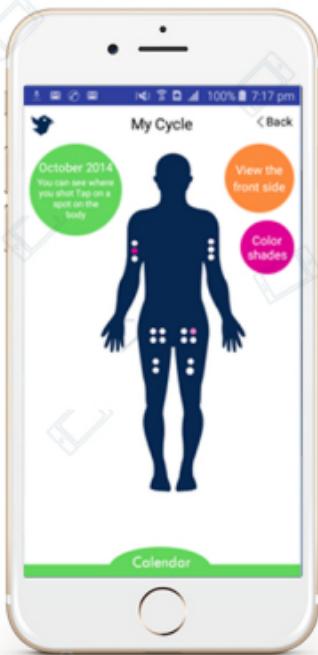

M S Maya

Problem: MS or Multiple Sclerosis is a disease in which the immune system eats away at the protective covering of nerves.

Solution: MS Maya acts as a boon for MS patients helping them take control of their MS condition by tracking the user's medicine intake, helping them to manage their disease better.

Services: Medication intake tracking, Disease management.

Our work

Guitar LessonZ

Problems: Always fancied learning how to play the guitar?

Solution - Guitar LessonZ is packed with two video guitar lessons that walk you through the basics such as tuning, basic chords. Guitar LessonZ is the perfect app for beginners.

Services: Musical Instrument training, Rhythm and chords.

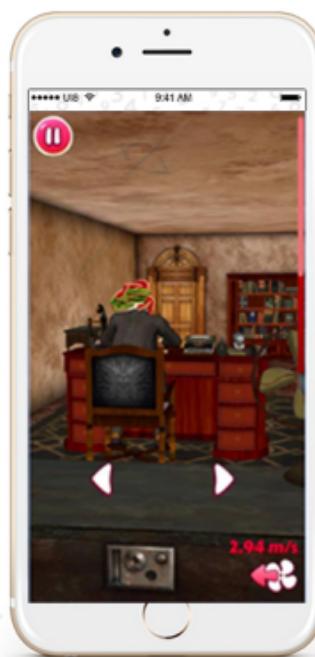

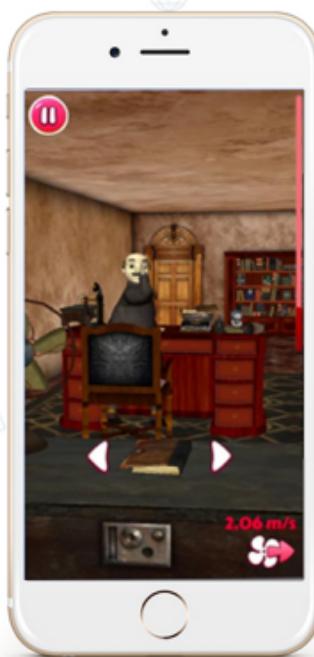

Annoy The Lawyer

Problems: When people think of lawyers a lot of litigating and never-ending court cases come to mind.

Solution: The James Legal team came up with the idea for this fun gaming app, to help people see lawyers in a different light. Annoy the lawyer aims at airing player's frustration by throwing things at the lawyer, which can range from a banana to a grenade, leading to the appearance of a different kind of lawyer.

Services: Entertainment, Gaming.

Our work

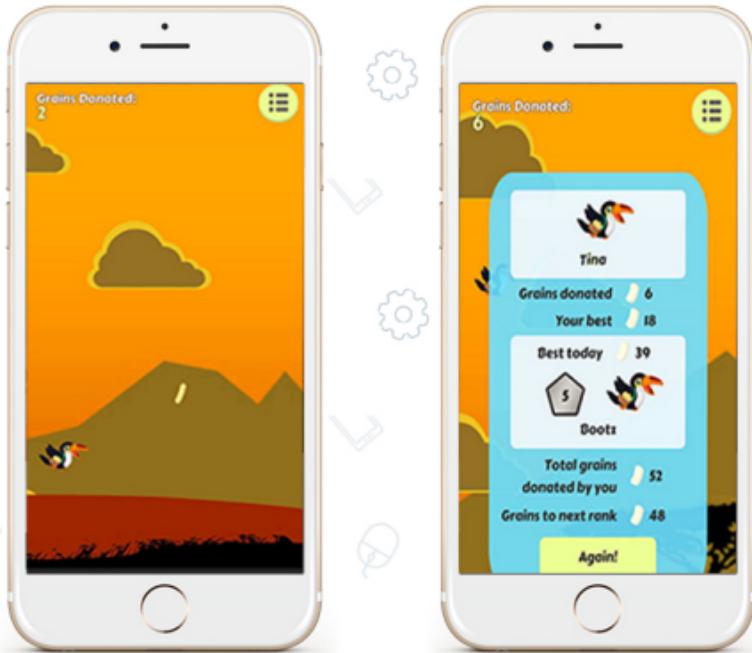

Rice Bird

Problems: A lot of non profit organisations are working towards the eradication of World Hunger.

Solution: Rice Bird is a game that was made with the objective of donating all proceeds to non-profit organisations focused on eradicating world hunger. Fly your rice bird through the sky in order to collect rice grains as they avoid collision with clouds. The in-game ads pay for donations, thus disabling add blockers would prove beneficial for the ones in need.

Services: Entertainment, Gaming, Charitable cause

Testimonials

Zubda

“ Relinns really came through to execute and develop my project. Working remotely was a new challenge for me as I never tried it before. But they proved to be an excellent partner, I felt that I am working with a team that I have known for a long while. Their positive attitude, genuine approach to customer service, knowledge of their business is an amazing added value and I recommend them for anyone looking for a remote developing partner.”

Rabie
UAE

Holimate

“ Relinns is truly a 1 stop center fulfilling all my project requirements involving development for Apps and website. I have already engaged them with 2 big requirements on all platforms and they can deliver with extra effort without me asking. I will opt for Relinns again for my next project. Keep the good work. Wish them huge success.

Marvin Foong
Malaysia

FreeFlush Rainwater Harvesting

“ We recently asked Relinns to create an Android App for Freeflush Rainwater Harvesting. Relinns were quick to understand the brief and prepare the wireframe outline of the app. Relinns were attentive in listening to our feedback regarding functionality and aesthetics. Relinns incorporated the feedback and completed the app in line with the deadline and the agreed budget. Overall we were very satisfied with the work Relinns and would not hesitate to recommend them to anyone he requires an app developing.”
